

e-Chits is Cost Effective, Easy Access, User Friendly, Cloud-based, Mobile Support, Highly Secured

e-Chits is a user-friendly chit fund software that can be easily accessed anywhere, any time without constraints. If you own multiple branches, the information can be viewed or retrieved from your device from a single point of access, irrespective of whether you are in the office or home. Managing your business on remote gives you the flexibility to work from your place of preference. Multiple users can access the software simultaneously for seamlessly updating the transactions, reports.

Using mobile Apps for the business allows the chit fund owner the flexibility in carrying out paperless transactions and complete transparency in collections, SMS notifications, auction schedules and facility to track down collections agents and their location. The subscribers find this App very helpful to follow up on their chit fund account as well.
